fit ever-evolving
workspace
demands.**

C-Sense

C-Sense bench system's back-to-back benching and single desks boast a robust and contemporary goalpost leg design.

C-Sense bench

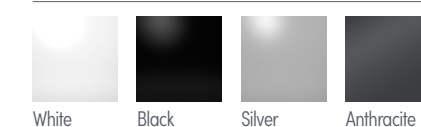

C-Sense's versatile steel framework allows easy re-configuration to meet ever-evolving office demands.

Choose from a variety of top and frame colours and a choice of cable management solutions to suit any environment.

features

- Back-to-back and add-on benching.
- Width: 1200, 1400, 1600 and 1800 mm.
- Depth: 1600 mm.
- Height: 725 mm.
- Available with ply edging.
- Frame: white, black, silver or anthracite.
- Cable management portals or scallops.

FRAME OPTIONS

C-Sense single

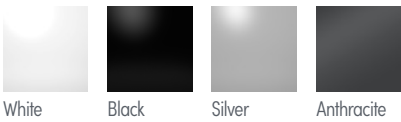

Standalone single desks or extendable with add-ons for benching runs that look great around room perimeters.

Choose from a variety of top and frame colours and a choice of cable management solutions to suit any environment.

features

- Single desk and add-on desks.
- Width: 1200, 1400, 1600 and 1800 mm.
- Depth: 800 mm.
- Height: 725 mm.
- Available with ply edging.
- Frame: white, black, silver or anthracite.
- Cable management portals or scallops.

FRAME OPTIONS

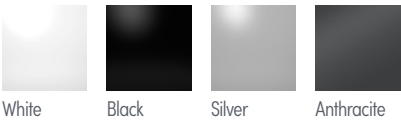

C-Sense

C-Sense also offers 120 degree 3-person bench, crescent desk and return desk that is ideal for expanding your desktop space.

The range offers an option no matter how large or small your office space. You can also choose between a large selection of top and frame options to suit your existing office furniture.

Switch

Switch's framework has been designed to allow limitless configurations with three leg frame styles in a wide range of finishes.

Switch benching

Ideal for collaborative working, Switch back-to-back benches combine with add-on units for any length of run.

Choose from Open, A-Leg or Closed frame for end units and extend using add-on units with set-back legs to maximise leg space.

features

- Back-to-back benching.
- Width: 1000, 1200, 1400, 1600, 1800 and 2000 mm.
- Depth: 600, 700 and 800 mm.
- Height: 725 mm.
- Available with ply edging.
- Frame: white, black, silver or anthracite.
- Top options: plain, portals or scallops.

FRAME OPTIONS

Switch return

Add additional worktop space using integrated return desks.

Flexible use of space is easy with Switch and with a variety of different top options and frame colours, you can create a space plan that not only fits your space and staff needs, but also complements your interior design.

INTEGRATED RETURN DESKS

Switch wave

Create wave benching with the Switch wave wedge.

Place 30 degree inserts between starter bench desks to create flowing, curving runs of desks.

Switch 120°

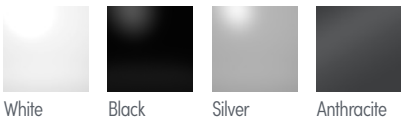

Create unique desk clusters with the Switch 120 Degree bench desk.

120 Degree desks are perfect for creating unique desk clusters for the purpose of improving communication and collaboration within teams.

features

- Open, Closed or A-Leg frame.
- Desk depth: 600 or 800 mm.
- 3 Curve width: 1260 and 1280 mm.
- Height: 725 mm.
- Available with ply edging.
- Frame: white, black, silver or anthracite.
- Top options: plain, portals or scallops.

FRAME OPTIONS

Switch crescent

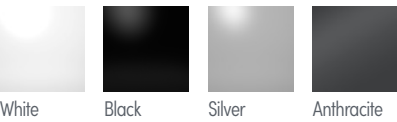

With a shared leg frame and integrated pedestal storage, the Switch crescent offers superb functionality and style.

The classic two-man crescent desk can be used individually or back-to-back to create a spacious desk solution.

features

- Open, Closed or A-Leg frame.
- Desk width: 1612 or 1812 mm.
- Height: 725 mm.
- Frame: white, black, silver or anthracite.
- Available with ply edging.
- Top options: plain, portal or scallop.
- Two personal and one filing drawer pedestal ends.

Switch design

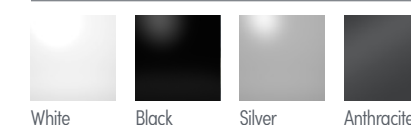

Switch Design is a highly flexible desking range that offers all the features of Switch Bench but with added rustic design with a natural oak leg.

Switch Design will add a unique interior feature to any office and equally compliment any colour scheme. The stylish desk comes with a natural oak wooden leg and a spacious desk surface. The legs are also completed with protective feet to prevent any damage to your floor.

features

- Create workstations of any length.
- Desks available in a variety of different desk top colours.
- Natural Oak leg finish.
- Available with ply edging.
- Available with scallop, porthole or plain top.
- Available in 6 widths from 1000mm to 2000mm.
- Available with 800mm top depth.

Building benching

Our benching systems reduce costs by using fewer components such as shared set-back legs and cable accessories.

Begin with a starter module then join add-on modules to increase benching run to the size required.

step 1.

Remove the end leg (shown in red) from the starter module.

step 2.

Prepare as many add-on modules as you require.

step 3.

Place the removed leg from the starter module at the end of the run.

step 4.

Assemble modules to create your benching run.

Modular feature

With the modular feature on our website you can fully customise the bench desking scene to build the perfect desking layout.

You can change many features within the scene including desk size, top colour, frame colour and more. Additionally, you can also add other products to your configuration such as seating, screens and more.

accessories

Complete your scene with seating, screens or cable tray/baskets.

Sustainability

We partner with the Global Climate Institute, where we plant a tree in Tanzania for every desk sold.

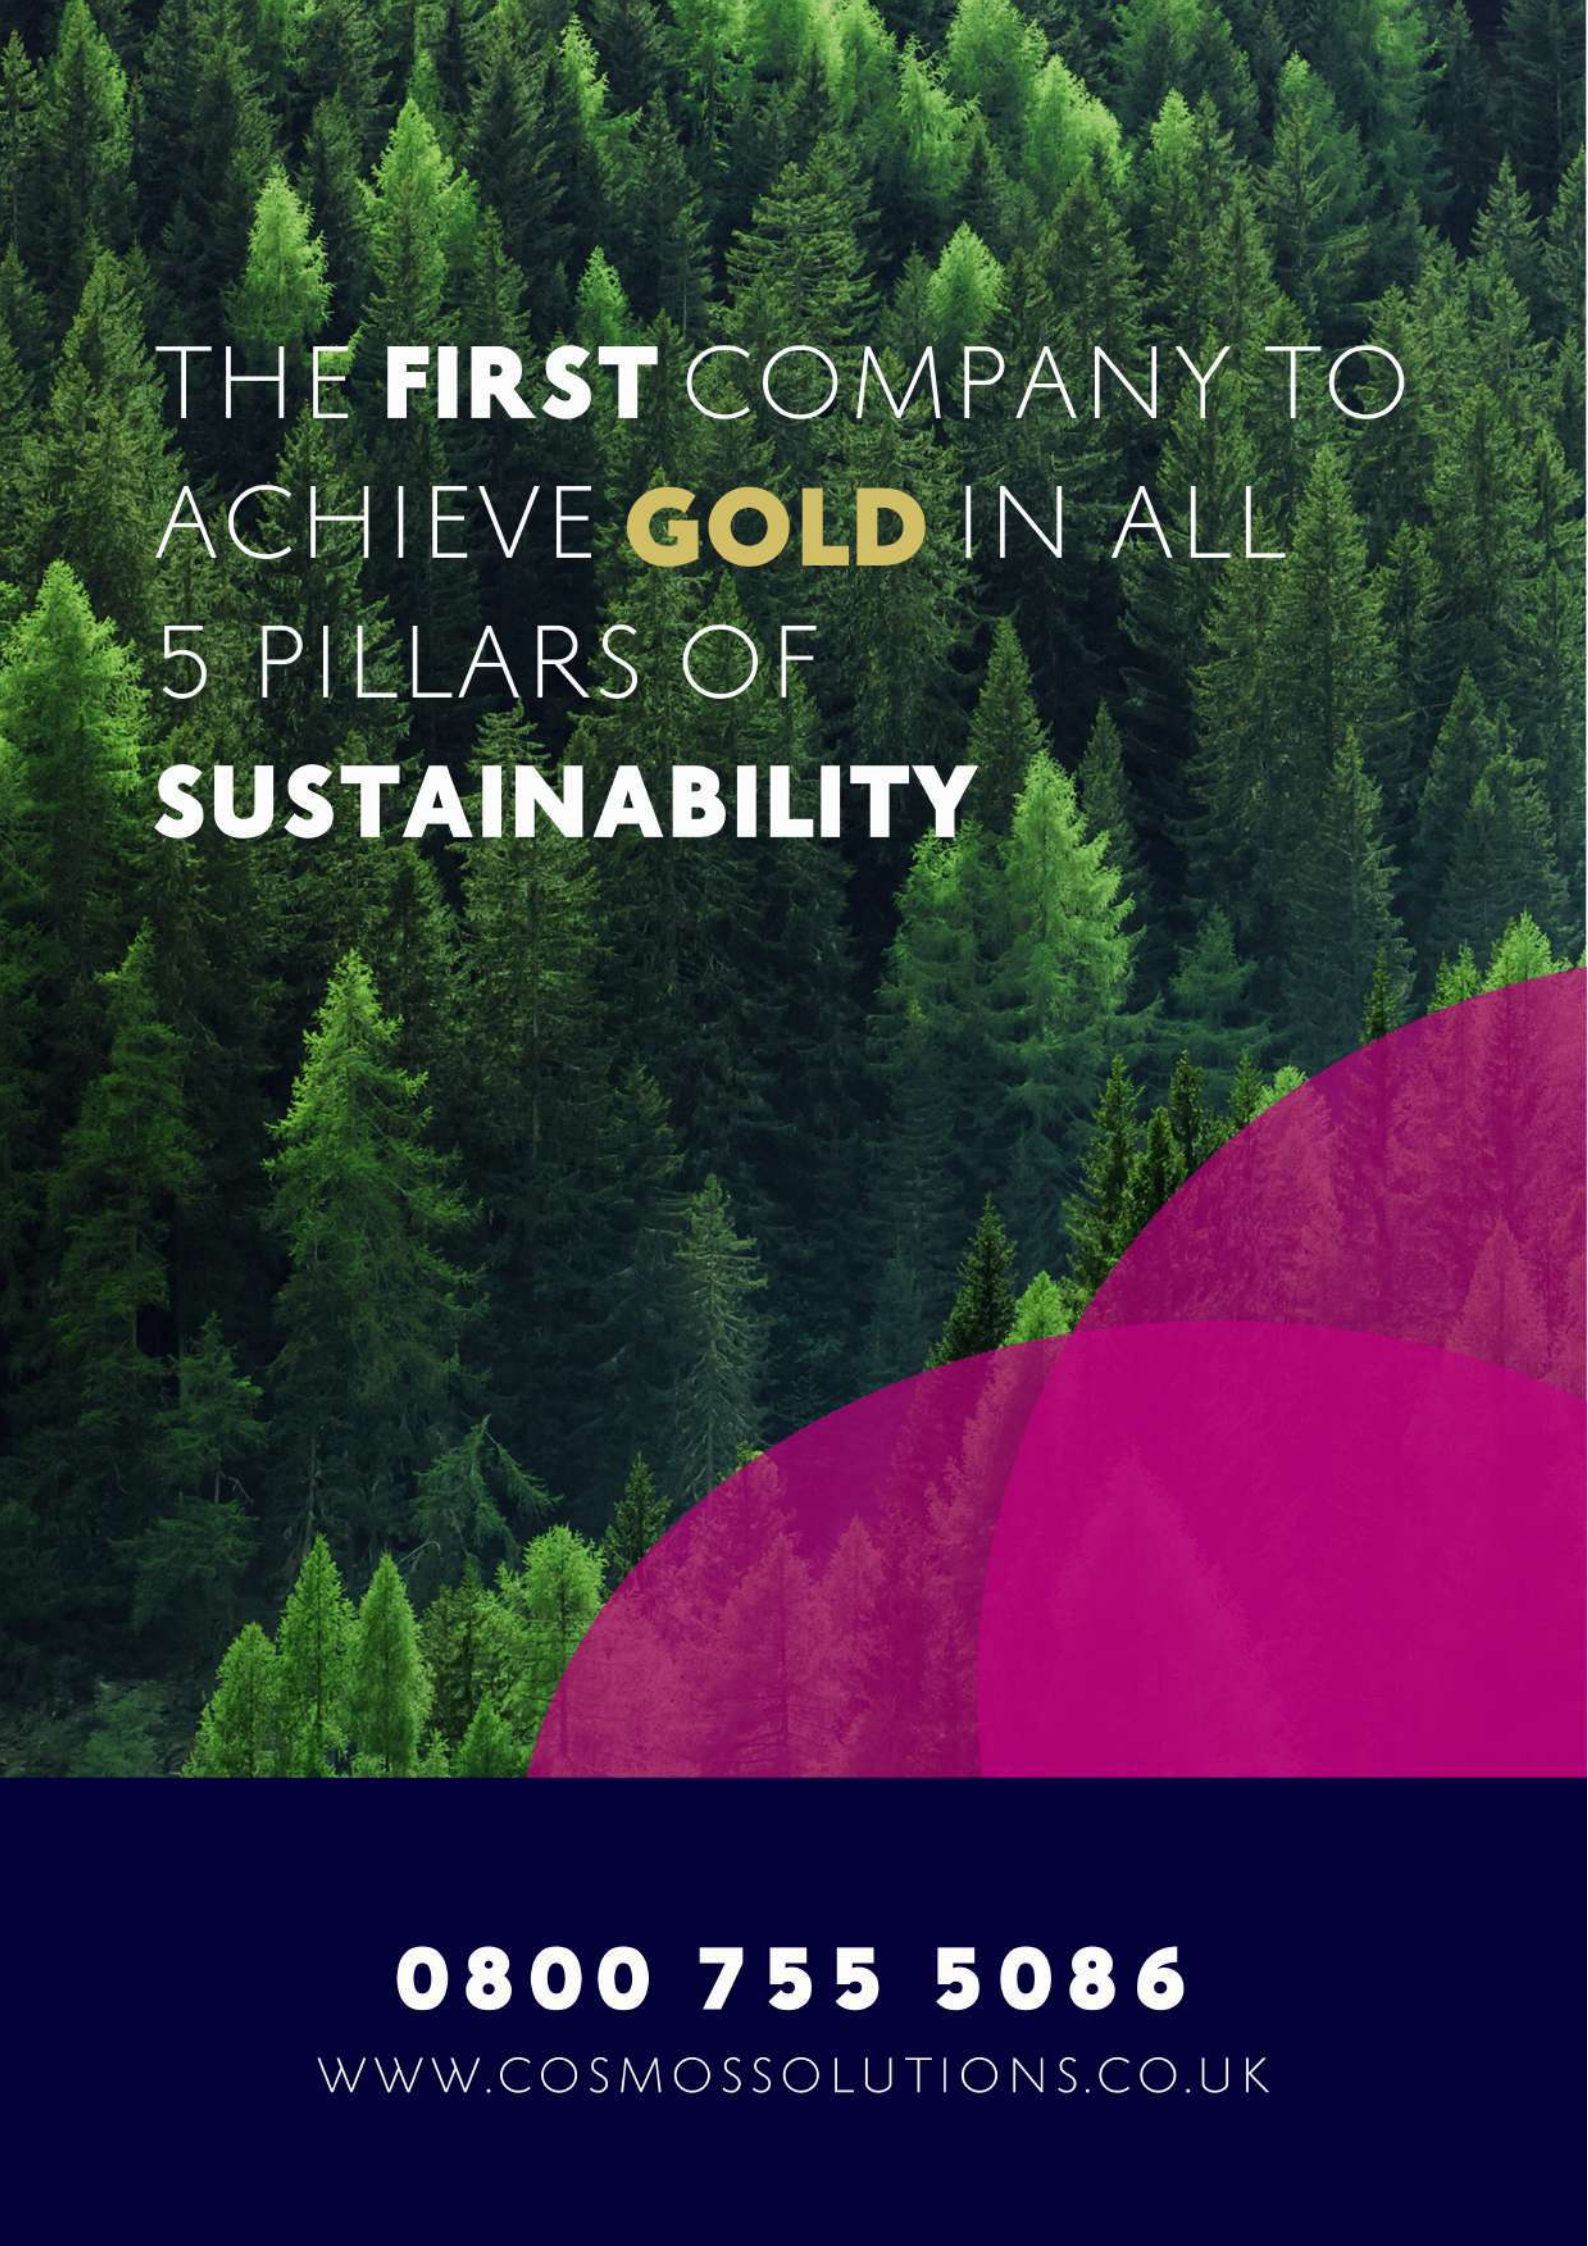

Why Tanzania?

The deforestation rate in Tanzania is amongst the highest in East Africa. For a country where the forests typically help fuel the national economy, this degradation has a dramatic impact on rural communities, causing major food insecurity.

Luckily, tree planting proves to be one of the most versatile and cost effective means to improve the quality of life for people living in impoverished areas, as the trees will provide decades of food, medicine, shade, firewood, carbon fixation, environmental enhancements, wildlife habitat and benefit the global climate.
